The construction of the new Campbell Sports Center and the Boathouse Marsh will provide Columbia University student-athletes with state-of-the-art facilities while increasing public access to the waterfront, restoring and extending the area’s native marshland adjacent to Inwood Hill Park, and creating an opportunity for increased educational and recreational activities for the community.

**Project Scope**

The Campbell Sports Center, designed by award-winning local architect Steven Holl, will be a five story, 47,700 square foot facility built on the corner of West 218th Street and Broadway. It will house spaces for football and varsity coaches, strength and conditioning, and meeting and study spaces for student-athletes. The Center will be at minimum LEED Silver certified. Construction is expected to be complete by fall 2012.

The Boathouse Marsh, designed by James Corner Field Operations, lead designers of the High Line, will create new public access and amenities on the waterfront, provide seating and passive recreation areas, restore and extend the area’s native marshland, and extend the educational offerings of Inwood Hill Park by creating an environment for learning about wetlands and living herbarium of the plants species that once flourished in the area. Construction is expected to be complete by fall 2012.

**What to Expect**

Although contractors carefully stage construction activities to minimize disruption to the surrounding community, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming month:

**Campbell Sports Center**

- On-site mobilization including the installation of site fencing, delivery of excavation equipment to the site and site grading.
- Removal of existing foundations, excavation and sheeting, preliminary trenching for utility work and identification of utilities outside of site.
- Parking lane and partial sidewalk closure along the project site on West 218th Street and Broadway. Pedestrian access will be maintained.
- The main roadway into Baker Field will be closed. Pedestrian traffic into Baker Field will be re-routed to the Class of 1905 Gate near the football stadium.
- Regular work hours: 7:00 a.m.—6:00 p.m.
  - Please note that certain construction equipment may be delivered during off-hours pending DOT oversize load requirements.

More specific information about construction impacts can be found in our weekly construction updates at [http://facilities.columbia.edu/projects](http://facilities.columbia.edu/projects). Please note that construction activities are subject to change based on field conditions. We appreciate the patience and cooperation of everyone who is temporarily inconvenienced by these projects.

Northern Manhattan Children Receive Scholarships to Columbia Cubs and Sports Camps at Baker Field

As part of the Baker Field Agreement, Columbia offers 32 scholarships annually for children from Northern Manhattan to summer Columbia Cubs Camps and select Columbia Sports Camps at Baker Field. This summer kids across Inwood and Washington Heights received scholarships to Cubs Camp—a popular day camp of sports, games, and arts and crafts specifically geared for 6 to 12 year olds—as well as Soccer Camp and Baseball Camp led by Columbia coaches.
