Columbia University's need for additional space for scientific instruction and research facilities continues to increase. To help alleviate this need for space and to better meet the scientific challenges of the 21st century, the University is constructing a new science building on the northwest corner of its Morningside campus. The project is located at the corner of Broadway and West 120th Street above the Dodge Physical Fitness Center.

Construction Activities for the Weeks of April 19, 2010 and April 26, 2010

Week of April 19, 2010

The majority of work is centered on interior build-out of the rooms and services.

- The finalizing of work on mechanical, electrical, plumbing (MEP) and air handling units (AHUs) continues.
- Carpentry and duct layout for the building’s base and on lab floors will take place.
- Curtain wall installation at the 400 level (plaza)’s west and east walls is nearing completion.
- New library floors will be installed.
- Work continues on the roof over the bridge connected to Pupin’s 1200 level.

Week of April 26, 2010

- The finalizing of work on MEP and AHUs continues throughout building. Additional AHUs are scheduled to be brought online.
- Curtain wall installation at the 400 level’s west and east walls will near completion.
- Carpentry and duct layout continues in the building’s base and on lab floors.
- Exterior masonry work continues. Scaffolding within site limits will be in place until April 10.
- Work on the Chandler and Pupin bridges will continue.
- A crane will be located at 120th Street to assist in the delivery of a stair (to be placed in the building’s library).

General Notes

- Work hours are between 7:00 a.m. and 3:00 p.m., unless otherwise noted.
- Dodge Fitness Center and Levien Gymnasium are open for business.
