Columbia University’s need for additional space for scientific instruction and research facilities continues to increase. To help alleviate this need for space and to better meet the scientific challenges of the 21st century, the University is constructing a new science building on the northwest corner of its Morningside campus. The project is located at the corner of Broadway and West 120th Street above the Dodge Physical Fitness Center.

**Construction Activities for the Weeks of**

*February 22, 2010 and March 1, 2010*

**Week of February 22, 2010**
- Mechanical, Electrical, Plumbing (MEP) rough-in work continues throughout building.
- Carpentry and duct layout for the building’s base and on lab floors will take place.
- Curtain wall installation will occur at the 400 level (plaza)’s west and east walls.
- Exterior masonry work continues. Scaffolding within site limits will be in place until April 10.
- Work on the Chandler and Pupin bridges, as well as removal of the exterior hoist, is in progress.
- Elevator work continues.

**Week of March 1, 2010**
- MEP rough-in work will occur throughout building.
- Carpentry and duct layout will continue in the building’s base and on lab floors.
- Curtain wall installation at the 400 level’s west and east walls will be in progress.
- Removal of construction hoist and roofing work (on main roof) will continue.
- Elevator work will continue. Two construction cars are now running.
- A new air handling unit (AHU) will continue to provide heat to the building. Additional AHUs are scheduled to be brought online.
- A new exit stairway at the south end of building continues to be constructed.

**General Notes**
- Work hours are between 7:00 a.m. and 3:00 p.m., unless otherwise noted.
- Dodge Fitness Center and Levien Gymnasium are open for business.
