Columbia University's need for additional space for scientific instruction and research facilities continues to increase. To help alleviate this need for space and to better meet the scientific challenges of the 21st century, the University is constructing a new science building on the northwest corner of its Morningside campus. The project is located at the corner of Broadway and West 120th Street above the Dodge Physical Fitness Center.

Construction Activities for the Weeks of March 29, 2010 and April 5, 2010

Week of March 29, 2010

Update:
- The elevator has been inspected and is currently operating.
- Roofing (on main roof) is water tight and completed.
- A new exit stairway at the south end of building is now installed, completed, and active.

Work:
- Mechanical, Electrical, Plumbing (MEP) as well as air handling units (AHUs) have been installed. The finalizing of this work continues.
- Carpentry and duct layout for the building’s base and on lab floors will take place.
- Curtain wall installation at the 400 level (plaza)’s west and east walls is nearing completion.
- New library floors will be installed.

Week of April 5, 2010

- The finalizing of work on MEP and AHUs continues throughout building. Additional AHUs are scheduled to be brought online.
- Curtain wall installation at the 400 level’s west and east walls will near completion.
- Carpentry and duct layout continues in the building’s base and on lab floors.
- Exterior masonry work continues. Scaffolding within site limits will be in place until April 10.
- Work on the Chandler and Pupin bridges will continue.

General Notes
- Work hours are between 7:00 a.m. and 3:00 p.m., unless otherwise noted.
- Dodge Fitness Center and Levien Gymnasium are open for business.
