The construction of the new Campbell Sports Center and the Boathouse Marsh will provide Columbia University student-athletes with state-of-the-art facilities while increasing public access to the waterfront, restoring and extending the area’s native marshland adjacent to Inwood Hill Park, and creating an opportunity for increased educational and recreational activities for the community.

Construction Activities for the Weeks of:
January 16, 2012 and January 23, 2012

Campbell Sports Center (West 218th Street and Broadway)

What is happening

- Dismantling of crane and removal of concrete crane pad
- Reconfiguration of sidewalk bridges and walkways
- Setting and bolting final connections of plank and steel
- Grouting plank and spray on fireproofing of steel
- Continued installation of stone walls and low concrete walls within the site
- Layout and installation of façade backup system and components
- Installation of concrete masonry units on first floor
- MEP roughing within building
- Placement of equipment and tarp to support temporary heating as may be required

What to expect

- Regular work hours: 7:00 a.m.— 6:00 p.m.
  - Certain equipment may be delivered during off-hours pending DOT oversized load requirements
  - Possible work on some Saturdays
- Parking along the south side of West 218th Street from Broadway to Park Terrace East will remain closed this month. The north side of West 218th Street from Broadway to Park Terrace East and the western parking lane along Broadway from the NW corner for approximately 200 feet north toward West 219th Street will remain closed until summer 2012.
- Sidewalk bridges from the edge of the soccer bleachers to the northwest corner of Broadway and West 218th Street along the west side of Broadway and from Broadway to approximately Park Terrace East along the north side of West 218th Street will be in place through summer 2012.
Sewer and storm drainage installations, subject to DEP and DOT stipulations, will likely take place toward the end of January/early February. Elements of this work may involve limited street closures at times determined by DOT and DEP.

- Con Edison may elect to undertake elective gas line replacements immediately following this utility work
- Con Edison may also close small area along Broadway in order to access their manhole for a limited amount of time
- The main roadway into Baker Field will be closed. Pedestrian traffic into Baker Field will be re-routed to the Class of 1905 Gate near the football stadium.

Please note that all activities are subject to change based on weather and other field conditions.
