A portion of the ground level of the School of Social Work will be renovated for the SIPA Center on Global Energy Policy and the School of International and Public Affairs. The Center is dedicated to research and data-driven analysis on energy with the vision to be the premier energy policy center with a global perspective. The proposed program for the space will provide for private offices, workstations, conference rooms and support spaces.

Construction Activities for the Weeks of January 26, 2015 and February 2, 2015

Although contractors carefully stage construction activities to minimize disruption, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

**Week of 1/26/15**
- Mobilize and begin metal stud framing and drywall
- Begin electrical layout and rough wiring

**Week of 2/2/15**
- Core drilling
- Continue metal stud framing
- Plumbing contractor equipment mobilization
- Prep existing steel at mezzanine for installation of plate reinforcement
- Demolition of ductwork as specified

What to Expect

The community should expect the following in the coming weeks:

- Regular work hours: 7:00 a.m. – 4:00 p.m. Some work may occur outside those hours consistent with New York City Department of Buildings regulations.
- Some noise due to construction-related activities
- Delivery of materials
- No house shutdowns required
- No weekend work

*Please note that all activities are subject to change based on weather and other field conditions*

Need More Information?
