This construction update has been developed specifically for people with an interest in the progress of renovations at the Mudd Building and contains information on construction activities in and around the building. Mudd Building renovations include expanding and renovating the Carleton Lounge, creating new space for the growing Data Science Institute, renovating Electrical Engineering education and research space, and updating restrooms and corridors.

Construction Update for the weeks of May 11, 2015 and May 18, 2015

Although contractors carefully stage construction activities to minimize disruption to the surrounding community, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

**What is Happening**

- Continue light fixture installation
- Complete fire alarm
- Duct work, installation of copper lines and AC-4 unit
- Plumbing work on 3rd, 4th and 5th floors; install bath fixtures
- Continue roughing for fire sprinkler system
- Install resilient base in floor
- Install AV equipment

**What to Expect**

The community should expect the following in the coming weeks:

- Delivery of materials
- Some noise due to construction-related activities
- Corridor traffic and noise
- Removal of construction debris
- No work week of May 18 due to commencement week activities

*Please note that all activities are subject to change based on weather and other field conditions*

**Need More Information?**
