Construction Update

Pupin Hall Upgrades
Construction Activities for the Next Two Weeks

Construction Update for the weeks of December 15, 2014 thru December 31, 2014

Although contractors carefully stage construction activities to minimize disruption to the surrounding community, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- **Physics New Theoretical Center**
  - Drywall and carpentry, taping and spackling, and ceiling framing
  - Mechanical and electrical rough-in work
  - Construction deliveries

- **MEP Vertical Infrastructure Upgrade**
  - Abatement inside shafts, 1300 level and 1400 level
  - Work inside temporary construction barriers (5th floor and below)
  - Demo of HVAC ductwork and terracotta walls inside shafts
  - Demo electrical on 100 level

- **5th and 6th Feeder Upgrade (Pupin and CEPSR)**
  - Demo existing switchgear and bus duct at Pupin
  - Demo electrical conduits, hangers and lighting 100 level Pupin

- **Exterior Copper Cornice Replacement**
  - Removal of existing copper and restoration
  - Heavy utilization of 120th Street (exterior work)

What to Expect

The community should expect the following in the coming weeks:

- Delivery of materials
- Some noise due to construction-related activities
- Elevator #36 to be utilized for construction related work
- Corridor traffic and noise

-Please note that all activities are subject to change based on weather and other field conditions-
