The construction of the new Campbell Sports Center and the Boathouse Marsh will provide Columbia University student-athletes with state-of-the-art facilities while increasing public access to the waterfront, restoring and extending the area’s native marshland adjacent to Inwood Hill Park, and creating an opportunity for increased educational and recreational activities for the community.

Construction Activities for the Weeks of:
May 21, 2012 and May 28, 2012

Campbell Sports Center (West 218th Street and Broadway)

What is happening

- Layout and installation of façade and roofing systems, components and waterproofing
- Layouts and installation of interior partitions and roof parapet framing
- Installations of piping, MEP equipment and ductwork
- Preparation for and installation of concrete infill slab at auditorium
- Waterproofing and roofing systems at terraces and auditorium

What to expect

- Regular work hours: 7:00 a.m.—6:00 p.m.
  - Certain equipment may be delivered during off-hours pending DOT oversize load requirements
  - No construction on Memorial Day
- Con Edison may begin incoming service work to the site which would impact traffic going south on Broadway along the site
- The north side of West 218th Street from Broadway to Park Terrace East and the western parking lane along Broadway from the NW corner for approximately 200 feet north toward West 219th Street will remain closed until summer 2012
- Sidewalk bridge from the edge of the soccer bleachers to the northwest corner of Broadway and West 218th Street along the west side of Broadway and from Broadway to approximately Park Terrace East along the north side of West 218th Street will be in place through summer 2012.
- The main roadway into Baker Athletics Complex will be closed. Pedestrian traffic into Baker Field will be re-routed to the Class of 1905 Gate near the football stadium.
Construction Update

Campbell Sports Center / Boathouse Marsh

Construction Activities for the Next Two Weeks

-Please note that all activities are subject to change based on weather and other field conditions-
