This construction update has been developed specifically for occupants of Pupin Hall and contains information on construction activities in and around the building. In efforts to make necessary upgrades to the building, while preserving its historic significance on the campus, a series of concurrent projects commenced in the spring of 2014 and continue until the fall of 2015. We hope you find this useful and thank you for your patience and cooperation as we work to make Pupin a better place to work and learn.

Construction Update for the Weeks of November 3, 2014 and November 10, 2014

Although contractors carefully stage construction activities to minimize disruption to the surrounding community, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- Physics New Theoretical Center
  - Carpentry work, layout and construction coordination
  - Electrical work and HVAC work at corridors 8th and 9th floors
  - Sprinkler piping
  - Construction deliveries

- Mechanical, Electrical and Plumbing (MEP) Vertical Infrastructure Upgrade
  - Work inside temporary construction barrier
  - Next round of asbestos abatement (abatement work from 9pm to 5am Fri/Sat/Sun after hours)
  - All abatement being coordinated with building manager

- Exterior Scaffolding Work
  - Overhead pipe scaffold and netting installation on campus side
  - Installation of netting on 120th Street side is completed

What to Expect

The community should expect the following in the coming weeks:

- Regular weekday work hours: 7:00 a.m. — 5:00 p.m. Saturday work hours: 9:00 a.m. — 5:00 p.m.
- Delivery of materials to 8th and 9th floors
- Some noise due to construction-related activities
- Elevator #36 to be utilized for construction related work
- Corridor traffic and noise

*Please note that all activities are subject to change based on weather and other field conditions*
