This construction update has been developed specifically for people with an interest in the progress of renovations at the Mudd Building and contains information on construction activities in and around the building. Mudd Building renovations include expanding and renovating the Carleton Lounge, creating new space for the growing Data Science Institute, renovating Electrical Engineering education and research space, and updating restrooms and corridors.

Construction Update for the weeks of June 8, 2015 and June 15, 2015

Although contractors carefully stage construction activities to minimize disruption to the surrounding community, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- Continue light fixture installation
- Complete fire alarm
- Duct work, installation of copper lines and AC-4 unit
- Plumbing work on 3rd, 4th and 5th floors; install water fountain on 4th floor
- Continue roughing for fire sprinkler system
- Install AV equipment
- Begin tile work in 5th floor bathroom
- Install high density fiberboard panels throughout 4th floor lobby
- Hardware installation
- Installation of metal panel walls in 4th floor lounge
- Lounge area and café on punch list items

What to Expect

The community should expect the following in the coming weeks:

- Delivery of materials
- Some noise due to construction-related activities
- Corridor traffic and noise
- Removal of construction debris

-Please note that all activities are subject to change based on weather and other field conditions-
