Although contractors carefully stage construction activities to minimize disruption to the surrounding community, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

**What is Happening**

- **Physics New Theoretical Center**
  - Carpentry work, layout and construction coordination
  - Electrical work and HVAC work at corridors 8th and 9th floors
  - Sprinkler piping
  - Construction deliveries

- **Mechanical, Electrical and Plumbing (MEP) Vertical Infrastructure Upgrade**
  - Work inside temporary construction barrier
  - Next round of asbestos abatement (abatement work from 9pm to 5am Fri/Sat/Sun after hours)
  - All abatement being coordinated with building manager

- **Exterior Scaffolding Work**
  - Overhead pipe scaffold on campus side
  - Installation of netting on 120th street side

**What to Expect**
The community should expect the following in the coming weeks:

- Regular weekday work hours: 7:00 a.m. – 5:00 p.m. Saturday work hours: 9:00 a.m. – 5:00 p.m.
- Delivery of materials to 8th and 9th floors
- Some noise due to construction-related activities
- Elevator #36 to be utilized for construction related work
- Corridor traffic and noise

*Please note that all activities are subject to change based on weather and other field conditions.*
