Columbia University's need for additional space for scientific instruction and research facilities continues to increase. To help alleviate this need for space and to better meet the scientific challenges of the 21st century, the University is constructing a new science building on the northwest corner of its Morningside campus. The project is located at the corner of Broadway and West 120th Street above the Dodge Physical Fitness Center.

Construction Activities for the Weeks of January 11, 2010 and January 18, 2010

**Week of January 11, 2010**
- Mechanical, Electrical, Plumbing (MEP) rough-in work will occur throughout building.
- Carpentry and duct layout will be laid out for building’s base and on lab floors.
- Curtain wall installation at 400 level (plaza), west wall will take place.
- Elevator work continues. Two construction cars are now running.
- Roofing work (on main roof) will take place.

**Week of January 18, 2010**
- MEP rough-in work continues throughout building.
- Carpentry and duct for the building’s base and on lab floors continues.
- Curtain wall installation will occur at 400 level, west wall.
- Exterior masonry work will begin. Scaffolding within site limits will be in place until April 10.
- Removal of construction hoist will begin.

**General Notes**
- Work hours are between 7:00 a.m. and 3:00 p.m., unless otherwise noted.
- Dodge Fitness Center and Levien Gymnasium are open for business. Dodge has and will continue to be unaffected by construction activities throughout the entire project.
