Columbia University's need for additional space for scientific instruction and research facilities continues to increase. To help alleviate this need for space and to better meet the scientific challenges of the 21st century, the University is constructing a new science building on the northwest corner of its Morningside campus. The project is located at the corner of Broadway and West 120th Street above the Dodge Physical Fitness Center.

Week of June 14, 2010

- Interconnections for the bridges between Chandler and Pupin, as well as repairs at the 119th Street driveway, continue.
- Roofing installation continues at exterior stair between Pupin Hall and the Northwest Corner Building.
- Waterproofing for back-up block begins on the building’s façade at Broadway. Stone installations will follow. Scaffolding will be in place within site limits.
- The finalizing of work on mechanical, electrical, plumbing (MEP); framing; drywall; and air handling units (AHUs) continues.
- Rigging and demolition continue at 120th Street between Mudd and CEPSR, as a primary power upgrade will take place at CEPSR.

Week of June 21, 2010

- Exterior bridge connections for Pupin and the Northwest Corner Building begin.
- Repairs at the 119th Street driveway continue.
- Roofing installation continues at exterior stair between Pupin Hall and the Northwest Corner Building.
- The finalizing of work on MEP and AHUs continues.
